San José, August 13<sup>th</sup>, 2010

**To whom it may concern**

As Director of Technology at Schematic, I am pleased to recommend to you Felipe Suarez. Until just recently, I have been Felipe's immediate manager for over two years. I found him to be consistently pleasant, tackling all assignments with dedication and a smile.

As Client Side Developer in the Technology department Felipe has developed and deployed numerous email marketing campaigns for our biggest client Dell.com. His work was a major factor in continued successful email campaigns for Dell SMB and consumer segments. He has also worked on other web development projects for Dell.com like a US Gaming Microsite. Felipe has not only worked well with his direct team, but he has also worked very well with other teams like creative and management to understand the customer's needs.

Though he was an asset to our technology efforts, Felipe was also helpful in other areas of the company like collaborating with our business development team where he showed interest and participated in client facing meetings.

Felipe is a very reliable person. I would without any reservation recommend Felipe to you. I am sure he will be a tremendous asset to your company.

Sincerely,
